

# BigFuture School

Helping your teen plan for the future just got easier. With BigFuture School, they have control over their college and career planning.

**BigFuture School is available to students who take certain College Board assessments during the school day (SAT®, PSAT/NMSQT®, PSAT 10™).**

The free mobile app provides college and career guidance at your teen's fingertips and the choice to opt in and hear from nonprofit institutions.

## **HELP YOUR TEEN CONTROL THEIR FUTURE PLANNING**

BigFuture® School meets your teen where they're already comfortable consuming information: their phone. They can access trusted, customized guidance from anywhere and connect to more college and career opportunities.

## **ENCOURAGE THEM TO CHECK THEIR SCORES**

Your teen can check their scores on the mobile app, including career insights that align with their scores.

## **HELP THEM DISCOVER MORE POSTSECONDARY OPPORTUNITIES**

College connections are powerful. Your teen can opt in to Connections™ to hear from nonprofit colleges, scholarship providers, and government agencies offering education programs.

They can discover institutions that are interested in students like them—while protecting their privacy. No personal information is shared with institutions, and your teen decides if and when to connect directly. *A school, district, or state may choose to not provide access.*

## **How it Works**

### **Provide a mobile number:**

During exam setup, your teen can provide a mobile number to access BigFuture School. We won't use their phone number for any other reason.

### **Consider Connections:**

If available, they can opt in during exam setup or when they download the app.

### **Plan for the future:**

They can explore timely messages on careers, colleges, and scholarships.
